

Списък на научните трудове на доц. д-р Светослав Иванов Ненов по конкурс за “професор”

УЧЕБНИЦИ

- [1] Ангел Дишлиев, Катя Дишлиева, Светослав Ненов, *Увод в теория на масовото обслужване*, Химикотехнологичен и металургичен университет, София, 2016, ISBN: 978-954-465-083-4.

УЧЕБНИ ПОМАГАЛА

- [2] Svetoslav Nenov, *MAPLE: Introduction to Maple, Examples, and Mathematical Models*, Лекции и упражнения по проект BG05M2OP001-2.009-0015 финансиран от Оперативна програма “Наука и образование за интелигентен растеж”, съфинансирана от Европейския съюз чрез Европейски социален фонд, Химикотехнологичен и металургичен университет, София, 2016-2017.

МОНОГРАФИИ, ИЗДАДЕНИ В ЧУЖБИНА

- [3] Angel Dishliev, Katya Dishlieva, Svetoslav Nenov, *Linear Systems and Applications in CAE Software*, Dynamic Publishers, USA, 2017, ISBN-10 1-890888-08-7.
- [4] Angel Dishliev, Katya Dishlieva, Svetoslav Nenov, *Finite Difference Method and Applications in CAE Software*, Dynamic Publishers, USA, 2017, ISBN-10 1-890888-09-5.
- [5] Andrey Antonov, Angel A. Dishliev, Angel B. Dishliev, Svetoslav Nenov, *Mathematical Modeling of Discontinuous Processes*, 2017, To appear in Scientific Research (to appear).

СТАТИИ

- [6] K.G. Dishlieva, A.B. Dishliev, S.I. Nenov, V.I. Radeva, Hausdorff metrics and parametric curves, *International Electronic Journal of Pure and Applied Mathematics*, **8**, No. 2 (2014), 53-65, DOI: 10.12732/iejpam.v8i2.2.
- [7] A. Golev, S. Hristova, S. Nenov, Monotone-iterative method for solving antiperiodic nonlinear boundary value problems for generalized delay difference equations with maxima, *Abstract and Applied Analysis*, Hindawi Publishing Corporation (2013), Article ID 571954, 9 pages, DOI: 10.1155/2013/571954.
Импакт фактор на списанието (5 years): 1.57.
- [8] D. Stratiev, I. Marinov, R. Dinkov, I. Shishkova, I. Velkov, I. Sharafutdinov, S. Nenov, T. Tsvetkov, S. Sotirov, M. Mitkova, and N. Rudnev, Opportunity to improve diesel-fuel cetane-number prediction from easily available physical properties and application of the least-squares method and artificial neural networks, *Energy & Fuels*, **29**, No. 3 (2015), 1520-1533, DOI: 10.1021/ef502638c.
Impact Factor на списанието (5 years): 3.625.
